Reactjs

Nayon Kanti Halder

Software Engineer || Tech Apprentice || React.js Front-End
Developer
Dhaka, Bangladesh

Summary

Greetings! I'm Nayon Kanti Halder, a Bachelor of Computer Science
and Engineering graduate equipped with a robust understanding
of computer science, programming, and software development
principles. My journey has been defined by crafting top-notch user
experiences across diverse digital platforms, including:

Web Application Development
Mobile Application Development
Dashboards
CRM Systems

My expertise extends to encompass the full spectrum of software
engineering, including but not limited to system architecture
design, API development, database management, and scalability
optimization. This holistic approach ensures that every solution I craft
not only meets but exceeds expectations, delivering seamless user
experiences and robust functionality. I honed my skills, particularly
in MERN Development, through dedicated training at Programming
Hero.

As a versatile professional, I excel in designing, developing, and
testing software applications to meet the highest standards of quality
and functionality. Now, I'm on the lookout for a mid-level Frontend
Developer position where I can leverage my skills and knowledge to
drive the growth and success of a dynamic organization.
